Boost Productivity with HP Memory and Storage Solutions

Memory and Storage Solutions

HP memory and storage solutions are great ways to take the productivity of your machines to the next level when you need it. All HP memory and storage modules are fully tested, warranted and supported.

Memory Solutions

Notebook memory solutions
Optimize your business computing performance with HP memory. Random Access Memory (RAM) temporarily stores information from your operating system, applications and data that are in current use. This allows your processor to easily access the critical information that makes your programs run. More RAM allows you to run more programs simultaneously and makes it easier to toggle between programs.
Insufficient memory and hard drive paging can slow your applications down. Upgrading your memory is a cost-effective way to boost your system performance without having to upgrade your processor. All HP warranty is tested and warranted to meet the demanding needs of your business. For workstations, HP offers Error-correcting code memory (ECC) because high performance decision-making demands high performance reliability.

Need to keep the broken hard drive because of the data stored on it? You can.

Care Pack

1. Accidental damage is defined as physical damage to a product caused by or resulting from a fortuitous incident. Covered perils include non-intentional liquid spills in or on the unit, drops, falls and electrical surge. This includes damaged or broken liquid crystal displays (LCDs) or broken parts. Accidental damage protection does not cover theft, loss, fires, normal wear, consumables, intentional acts of damage, etc. For HP business notebook products, HP does not limit the number of qualified claims for the duration of the Care Pack agreement; for all other products, major parts replacement is limited to one major part per product per 12-month period commencing from the Care Pack start date for accidental damage protection coverage, major parts include but are not limited to the screen (LCD), dvd/cd-rom drive, motherboard, processor, hard disk drive and memory.

2. Service levels and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit **hp.com/go/cpc**
